	multifunctional obstetric table (treading hydraulic)	AC-MOT001	<p>Product Description:</p> <p>The obstetric table is used for childbirth, gynecology surgical operation, examining and many other functions, including urgent caesarean operation.</p> <p>the obstetric table's integral lifting, the seating plate and back plate's turning are all controlled by Pedal hydraulic rising system. The assistant board is with turn able designing, no need to dissembling.</p> <p>All cover, the panel is made by engineering plastic, with beautiful appearance and easy to wash.</p> <p>Standard configuration</p> <p>Waterproof pad 1</p> <p>The waist of the handrail 1 pay</p> <p>Legrest 1 pay</p> <p>The dirt tray 1</p> <p>Hand plate 1 pay</p> <p>Bearing device 1</p>
	multifunctional obstetric table (treading hydraulic)	AC-MOT002	<p>Product Description:</p> <p>The obstetric table is used for childbirth, gynecology surgical operation, examining and many other functions, including urgent caesarean operation.</p> <p>The ascent and decent of the whole set is controlled by pedal hydraulic, with a manual handle to make the platform to tile back and forth, back plate's up and down.</p> <p>The handle is made by high quality aluminum, plug-in type platform can be removed easily when not using.</p> <p>The mattress is made by seamless covering. The bottom plate's fixing and moving are controlled by adjustable rod, which can be locked as well.</p> <p>Product Parameters:</p> <p>Table top dimension: length 1895mm, width610mm</p> <p>Min.& Max. table height:630mm~880mm</p> <p>Trendelenburg & reverse trendelenburg: reverse trend $\geq 10^{\circ}$, trend $\geq 15^{\circ}$</p> <p>Back section turning: $-10^{\circ}\sim 75^{\circ}$</p> <p>Assist platform dimension: length550mm, width610mm</p> <p>Arm rest swing out: $\geq 90^{\circ}$</p> <p>Filth basin dimension:468x338x125mm(can be equipped with soft pipe)</p> <p>Standard accessories</p> <p>Waterproof cushion 1 set</p> <p>Waist grab handle 1 pair</p> <p>Leg holder 1 pair</p> <p>Filth basin 1 piece</p> <p>Arm rest 1 pair</p> <p>Clamp 1 pair</p>
	multifunctional obstetric table (semi-automatic)	AC-MOT003	<p>Product Description:</p> <p>The obstetric table is used for childbirth, gynecology surgical operation, examining and many other functions, including urgent caesarean operation.</p> <p>The power system's main part is made by Danish imported Linak Motor, DC linear actuator, safety currency is DC24, which is stable and eco-friendly.</p> <p>, The bed frame is made by imported PVC which is made by one time molding.</p> <p>The seamless mattress is equipped with pillow, which can make the lying woman feel comfortable.</p> <p>The bottom plate's fixing and moving are controlled by foot switch, which is quite convenient for the operators.</p> <p>The planks, basins and all outer shells are made engineering platic, which makes nice appearance and easy cleaning</p> <p>Product Parameters:</p> <p>Table top dimension: length 1900mm, width610mm</p> <p>Min.& Max. table height:660mm~910mm</p> <p>Trendelenburg & reverse trendelenburg: reverse trend $\geq 10^{\circ}$, trend $\geq 15^{\circ}$</p> <p>Back section turning: $-10^{\circ}\sim 75^{\circ}$</p> <p>Assist platform dimension: length550mm, width550mm</p> <p>Arm rest swing out: $\geq 90^{\circ}$</p> <p>Filth basin dimension:468x338x125mm(can be equipped with soft pipe)</p> <p>Power: AC 220V 50HZ</p> <p>Standard accessories</p> <p>Waterproof cushion 1 set</p> <p>Waist grab handle 1 pair</p> <p>Leg holder 1 pair</p>

	multifunctional obstetric table	AC-MOT004	<p>Product Description:</p> <p>The obstetric table is used for childbirth, gynecology surgical operation, examining and many other functions, including urgent caesarean operation.</p> <p>The whole bed's up and down, back and forth tile is controlled by micro touchable operator, the foot switch is optional.</p> <p>The power system's main part is made by Danish imported Linak Motor, DC linear actuator, safety currency is DC24, which is stable and eco-friendly.</p> <p>The back plate is using manual gas spring, which can be adjusted to any angle freely.</p> <p>The bed frame is made by imported PU which is made by one time molding.</p> <p>The seamless mattress is equipped with pillow, which can make the lying woman feel comfortable.</p> <p>The waist part is equipped with foldable handle, which can be moved back and forth.</p> <p>Hidden working station gives more space to the doctor and nurse.</p> <p>The bed is equipped with separate foot rest, controlled by gas spring.</p> <p>The bottom plate's fixing and moving are controlled by foot switch, which is quite convenient for the operators.</p> <p>The planks, basins and all outer shells are made of stainless steel, which makes nice appearance and easy cleaning</p> <p>Product Parameters:</p> <p>Table top dimension: length 1900mm, width610mm</p> <p>Min.& Max. table height:750mm~1000mm</p> <p>Trendelenburg & reverse trendelenburg: reverse trend $\geq 15^\circ$, trend $\geq 15^\circ$</p> <p>Back section turning: 0~75°</p> <p>Assist platform dimension: length550mm, width550mm</p> <p>Arm rest swing out: $\geq 90^\circ$</p> <p>Footrest swing out: 0~45°</p> <p>Footrest turn up: 0~45°</p> <p>Filth basin dimension:468x338x125mm(can be equipped with soft pipe)</p> <p>Power: AC 220V 50HZ</p> <p>Standard accessories</p>
	multifunctional obstetric table	AC-MOT005	<p>Product Description:</p> <p>The obstetric table is used for childbirth, gynecology surgical operation, examining and many other functions.</p> <p>The whole bed's up and down is controlled by electric and foot switch. The back plate is equipped with manual gas spring, vary angles can be achieved.</p> <p>The power system's main part is made by Danish imported LINAK Motor, DC linear actuator; safety currency is DC24, which is stable and eco-friendly.</p> <p>The bed frame is made by imported US PU which is made by one time molding.</p> <p>The seamless mattress is equipped with pillow, which can make the lying woman feel comfortable.</p> <p>The waist part is equipped with foldable handle, which can be moved back and forth.</p> <p>Hidden working station gives more space to the doctor and nurse.</p> <p>Product Parameters:</p> <p>Table top dimension: length 1900mm, width610mm</p> <p>Min.& Max. table height:750mm~1000mm</p> <p>Trendelenburg & reverse trendelenburg: reverse trend $\geq 15^\circ$, trend $\geq 15^\circ$</p> <p>Back section turning: 0~75°</p> <p>Assist platform dimension: length550mm, width550mm</p> <p>Arm rest swing out: $\geq 90^\circ$</p> <p>Filth basin dimension:468x338x125mm(can be equipped with soft pipe)</p> <p>Power: AC 220V 50HZ</p> <p>Standard accessories</p> <p>Waterproof cushion 1 set Waist grab handle 1 pair</p> <p>Leg holder 1 pair Filth basin 1 piece</p> <p>Arm rest 1 pair Foot switch 1 piece</p> <p>Clamp 1 pair</p> <p>Note: Mattress made from mould, with no seam on the surface.</p>
	multifunctional obstetric table	AC-MOT006	<p>The obstetric table is new designed and manufactured to meet the need of the market. It absorbs the advanced foreign technology. It is used for childbirth, gynecology surgical operation, examining and many other functions, including urgent caesarean operation.</p> <p>The ascent and descent, forward and backward tilting of this set are manipulated by micro touching controller, of usage convenience and agility. The key part of power system adopts imported electric motor, low in noise and stable in nature. Back section is controlled by electric.</p> <p>Outer shells are made of engineering plastic, which makes nice appearance and easy cleaning. Available in a choice of colors of foot and soft mat.</p> <hr/> <p>Table top dimension: length 1920mm, width610mm</p> <p>Min.& Max. table height:790mm~1040mm</p> <p>Trendelenburg & reverse trendelenburg: reverse trend $\geq 12^\circ$, trend $\geq 12^\circ$</p> <p>Back section turning:-5°~75°</p> <p>Seat section turn up:0~15°</p> <p>Assist platform dimension: length580mm, width610mm</p> <p>Assist platform swing out: 0~90°</p> <p>Arm rest swing out: $\geq 90^\circ$(can be at upright position as guard rail)</p> <p>Filth basin dimension:468x338x125mm(can be equipped with soft pipe)</p> <p>Power: AC 220V 50HZ</p> <hr/> <p>Standard accessories</p> <p>Waterproof cushion 1 set</p> <p>Waist grab handle 1 pair Leg holder 1 pair</p> <p>Filth basin 1 piece Arm rest 1 pair</p> <p>Foot switch 1 piece Clamp 1 pair</p>
